**Subject:** Use of Mid-Coast Basin on EPA/NOAA's Assessment under CZARA Settlement Agreement

Hi All,

I checked on Oregon DEQ's website and it uses "The Mid-Coast Basin" and explains that "The Mid-Coast Basin encompasses four subbasins: the Alsea, Siletz-Yaquina, Siltcoos and Siuslaw subbasins."

So if no one objects, I will use the term mid-coast basin" throughout the letter and enclosure.

I have contacted both Helen and Dave Croxton and they will not be commenting on this draft. I have not heard from Don yet. It is possible we can get the draft to our attorney's today....

Jayne

Subject: Re: DUE BY FRIDAY: Comments on (11-27) Version of EPA/NOAA's Initial Written Assessment under CZARA Settlement Agreement

I looked it over again, responded to a couple of comments and deleted a phrase from the enclosure that I'd put in. It looks good to me from the TMDL side of things.

Jayne - attached is Allison's latest clean version with my responses to comments in the margins. As I noted before this is good to go from my perspective.

## Settlement Agreement

Hi All,

See below and let me know if you DO NOT plan to review and provide comments.

 Subject: Re: FOR TODAY's MEETING: Attorney's Comments Revised EPA/NOAA's Initial Written Assessment under CZARA Settlement Agreement (10 AM OR/WA time or 1 PM DC time) **Nonresponsive**

All--

Attached is the latest version of the letter and enclosure after the additional work by Jayne, Dave and me following our call. I've included a "clean" version (with minor edits I made after I reading through the clean version once more) as well as the (rather messy) tracked changes version if you want to see what specific edits were made and some of the thought processes behind them. Please share your final comments/edits with the group by noon Friday so that Jayne can consolidate. [attachment "EPA NOAA Assessment DP Dec 2012 11-26-12\_ac.docx" deleted by David Powers/R10/USEPA/US] [attachment "EPA NOAA Assessment DP Dec 2012 11-26-12\_ac\_clean.docx" deleted by David Powers/R10/USEPA/US]  
 If possible, add you comments to someone else's to minimize the number of versions. We plan to have a final draft to share with our respective GC by Monday.

As you review/edit again, please keep in mind some common terminology/style issues to ensure consistency throughout out the document:

1. Refer to ODEQ as ODEQ, not DEQ
2. Mid-Coast sub-basin is hyphenated and capitalized as shown.
3. Landslide prone areas is not hyphenated (unless someone feels strongly about saying landslide-prone, in which case, please do a find and replace throughout.
4. The same would be true for "fish bearing" and "nonfish bearing" streams.
5. Refer to the Coastal Nonpoint Program (not CNPCP or CNP), except for the first mention in the letter which includes the full name.
6. The correct way to refer to the remaining "forestry condition" is "condition for additional management measures for forestry" OR "additional management measures for forestry condition". The settlement agreement states it incorrectly.
7. Use "management measures" (always spelled out, never abbv as MM) when referring to additional measures Oregon needs to develop to address its additional MM forestry condition and BMPs when referring to specific practices ODEQ needs to include in its IR-TMDLs.
8. To emphasize the Mid-Coast TMLD is not your typically TMDL (nor to we expect it to be), always refer to it as the Mid-Coast IR-

TMDL.

9. Only include ONE space between sentences.

There may be a few others but these are the big ones I can think of right now.

Allison
